Sir:

In response to an Office Action¹ dated December 26, 2007, entry of the following amendments and remarks into the file of the above-identified application is respectfully requested to place the above-identified application in condition for allowance or, at a minimum, in better form for appeal.

Amendments to the Claims begin on page 2 of this paper.

Remarks begin on page 8 of this paper.

Conclusion begins on page 10 of this paper.

¹ Page 1 of the office action states that the status of the action is final, which the Examiner states is a typographical error. On page 10, lines 2-3 of the office action, it is stated that the office action is made non-final, since claims have been added to the rejection that were inadvertently left out since they have the same issues as raised with respect to the recited percent similarity language and reads on a genus not adequately described or supported by the instant specification.
